Applexus RetailEdge

Cloud ERP for Retail & Fashion

Built for rapid deployment, retail-specific intelligence, and scalable omni-channel growth

Brochure

Accelerate your retail operations with solutions built on SAP® Cloud ERP

In today's competitive retail landscape, brands are under constant pressure to deliver faster, smarter, and more consistent omnichannel experiences—all while managing costs and keeping up with rapid market shifts. Fragmented systems, siloed reporting, and complex operations make it difficult for retailers to scale efficiently, maintain compliance, and provide seamless customer experiences across channels.

Applexus RetailEdge is purpose-built to help fashion and retail businesses accelerate their digital transformation with SAP Cloud ERP. Designed for rapid, affordable deployment, the solution comes with preconfigured best practices, embedded AI automation, and integrated analytics—making modern ERP adoption simpler and smarter.

With RetailEdge, retailers gain the ability to strengthen supply chain resilience, unify operations across stores and eCommerce, and harness predictive insights to drive proactive decisions. The result is faster time to value, reduced total cost of ownership, and the agility to scale and innovate with confidence.

		Go-Live Acceleration Time to full transformation deployment
	25%	 Stockouts Reduction Decrease through unified inventory management
	30%	 Inventory Turn Improvement Increase via AI-driven planning
	40%	 Order Fulfillment Speed Faster processing enabled by automation
	50%	 Manual Financial Processes Reduction via automated AP/AR and reporting

Note: Results may vary. Metrics are based on typical outcomes from internal assessments and partner benchmarks, not guaranteed performance.
